HIKVISION

About Us

Hikvision Digital Technology

Hikvision is committed to serving various industries through its cutting-edge technologies of machine perception, artificial intelligence, and big data, leading the future of AIoT. At Hikvision, we believe that close collaboration with our ecosystem of partners is needed to further accelerate innovation and development in the security industry, while also securing maximum value creation for clients.

We work in close partnership with thousands of best of technical manufacturers of hardware and software systems in the security, automated manufacturing, and IoT industries. Our Technology Partner Program ensures that our clients can use Hikvision technologies knowing that we provide vendors with the tools to obtain comprehensive integration and compatibility with all our products.

Argeloji Mühendislik Bilişim ve Dan. Tic. Ltd. Şti.

Argeloji was founded by a team in 2017 with international experience in IoT projects, guided by the vision of providing innovative solutions to the challenges of the business world. As the business world grows more complex, Argeloji crafted solutions that bring your processes into the digital age. This helps make operations smoother and speeds up your path to reaching business goals. Argeloji has created BlueOperation as an IoT platform for company digitalization to shape the future of the business world today. In this journey, BlueOperation commits to standing by the customer side as a business partner, guide, and supporter.
