JOINT VALUE BROCHURE

CREATING TIME-LAPSE SOLUTIONS TOGETHER

Professional Time-Lapse solution
with Client Portal and human edits

About Site Eye Time-Lapse Films

Marketing & PR

Time-lapse footage is an ideal way to showcase your project. It is perfect for social media and keeps viewers in the loop of project progress.

It is also a great tool to draw interest on a website or intranet page and keep interest buzzing.

Site Monitoring

Because recording time-lapse results in the collection of thousands of very high quality still images, every few minutes throughout the project, it is also an ideal tool for monitoring the site. All images are uploaded to our servers and are immediately available to clients through our online secure Portal.

Technical Details

Solution Type	Cloud
Integration Protocol	ISAPI, HEOP
Product Languages	English
Regions	Africa, Asia, Europe, Latin America, Middle East & North Africa, North America, Oceania

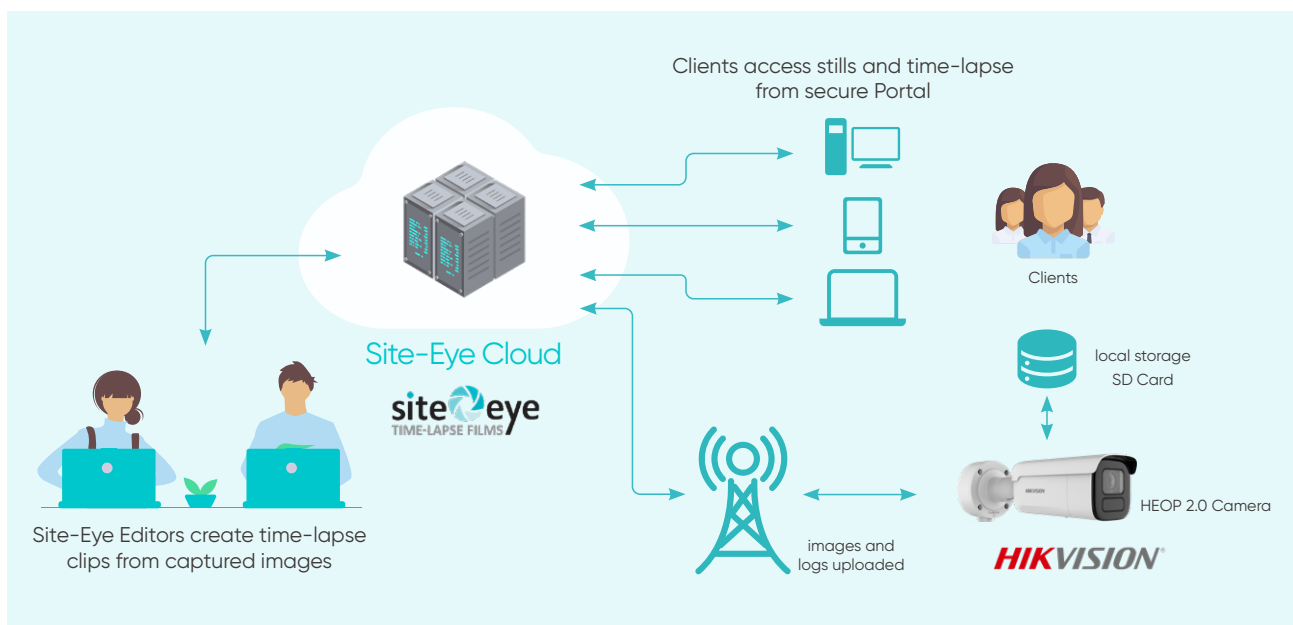

Integrated Hikvision Products

✓ IPC

Supported Product Models and Versions

- DS-2CD3086G2-IS(2.8mm)(H)(eF)(O-STD)(latest version)

- DS-2CD3T86G2-4IS(2.8mm)(H)(eF)(O-STD) (latest version)

Solution Architecture

User Benefits

1 • Marketing & Promotion

A time-lapse video can be a powerful promotional tool. Businesses can use it to showcase their work, products, or services in a short and engaging format.

2 • Progress Monitoring

For projects, especially construction or development, stakeholders can monitor the progress and ensure everything is on track.

3 • Visual Documentation

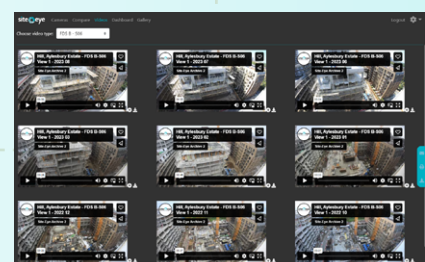

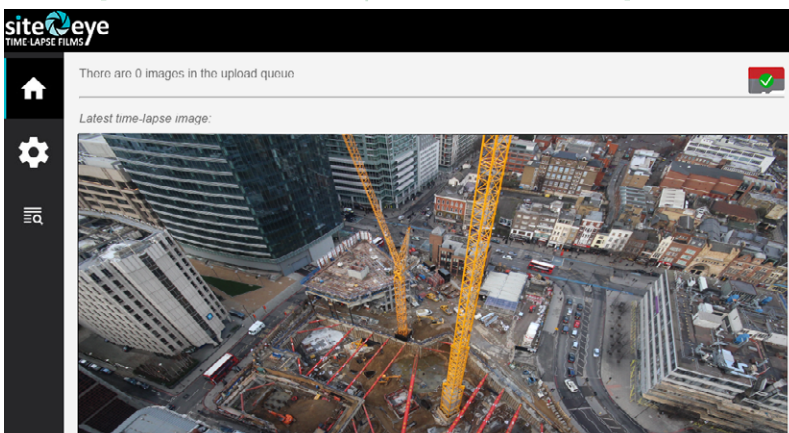

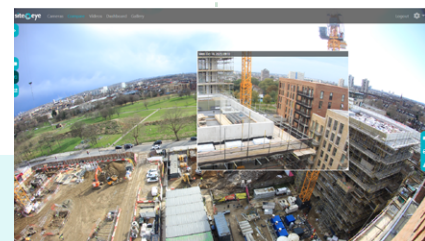

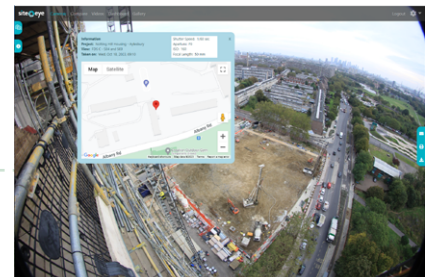

Time-lapse technology provides visual documentation of a project from start to finish. This can be particularly useful for projects that take place over long periods, such as construction or environmental changes.

4 • Insights & Analysis

Time-lapse videos can provide insights into processes and events, helping stakeholders make informed decisions.

5 • Aesthetic Appeal

Time-lapse videos can capture the beauty of natural events or transformations in an attractive way, making them appealing for artistic or entertainment purposes.

Key Features

Tolerant of network outages. Recording continues and stored images are uploaded when the network is restored

Remote control of capture parameters (time of day, interval, etc.)

All images available on a secure Portal

Monthly human edits for each camera

Simple to set up and manage

Targeted industries

Retail

Healthcare

Education

Government Facilities

Commercial

Data Centers

Utilities

Energy and Mining

Manufacturing and Industrial

Public Transport

Residential

Sport and Leisure

Logistics
