

**JOINT VALUE BROCHURE**  
**CREATING PROFESSIONAL TIME-LAPSE**  
**SOLUTIONS TOGETHER**

Connect your IP camera to our cloud and  
easily start your time-lapse project.

# About Natilon Time Lapse Cloud

CCTV installers often receive requests for time-lapse footage from clients, but NVR and CCTV video recording is not a solution for these projects. Our time-lapse cloud allows installers to easily connect any IP camera and start creating time-lapse videos without any additional investment in hardware.

Hikvision's high quality IP cameras and reliable hardware, combined with Natilon's perfect time-lapse solution, will enhance the market presence and capabilities of CCTV installers.

## Technical Details

|                             |  |
|-----------------------------|--|
| <b>Solution Type</b>        | Cloud Hosted Storage<br>Construction Application   |
| <b>Integration Protocol</b> | ONVIF, RTSP  |
| <b>Product Languages</b>    | English, Turkish   |
| <b>Regions</b>              | Africa, Middle East & North Africa, Latin America,<br>Oceania, Asia, Europe, North America |

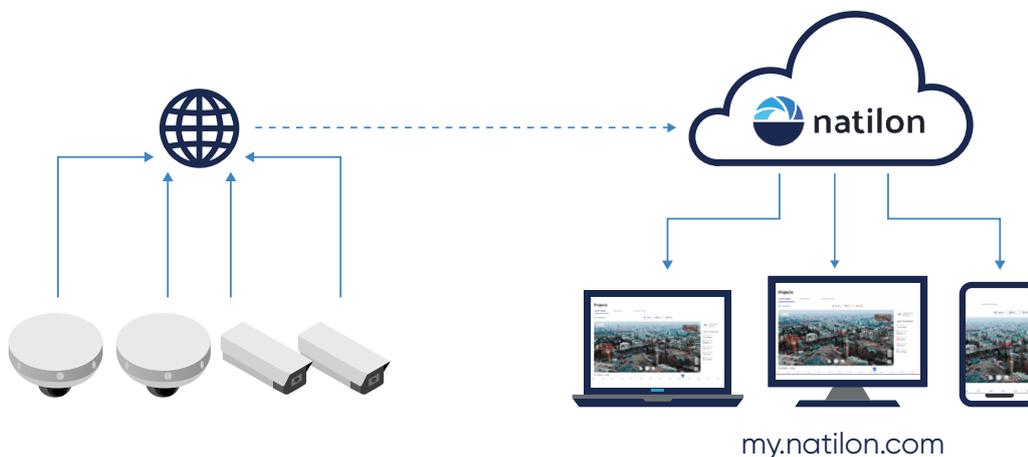

### Integrated Hikvision Products

- ✓ Network Camera
- ✓ PTZ Camera
- ✓ Network Video Recorder
- ✓ Digital Video Recorder

### Supported Product Models and Versions

All Hikvision IP cameras

# User Benefits

## For End Users

### 1. Create high quality time-lapse videos and use for marketing content

Natilon's user-friendly interface lets users manage and create long-term time-lapse projects without any technical knowledge. Clients can manage multiple construction sites and multiple users.

### 2. Low cost time-lapse solution

If a client has an IP camera already online, he can start immediately creating time-lapse videos for free without any investment. The client can continue with a suitable subscription plan if he/she likes our solution.

## For Installers

### 1. Free demo for every client with "zero" effort

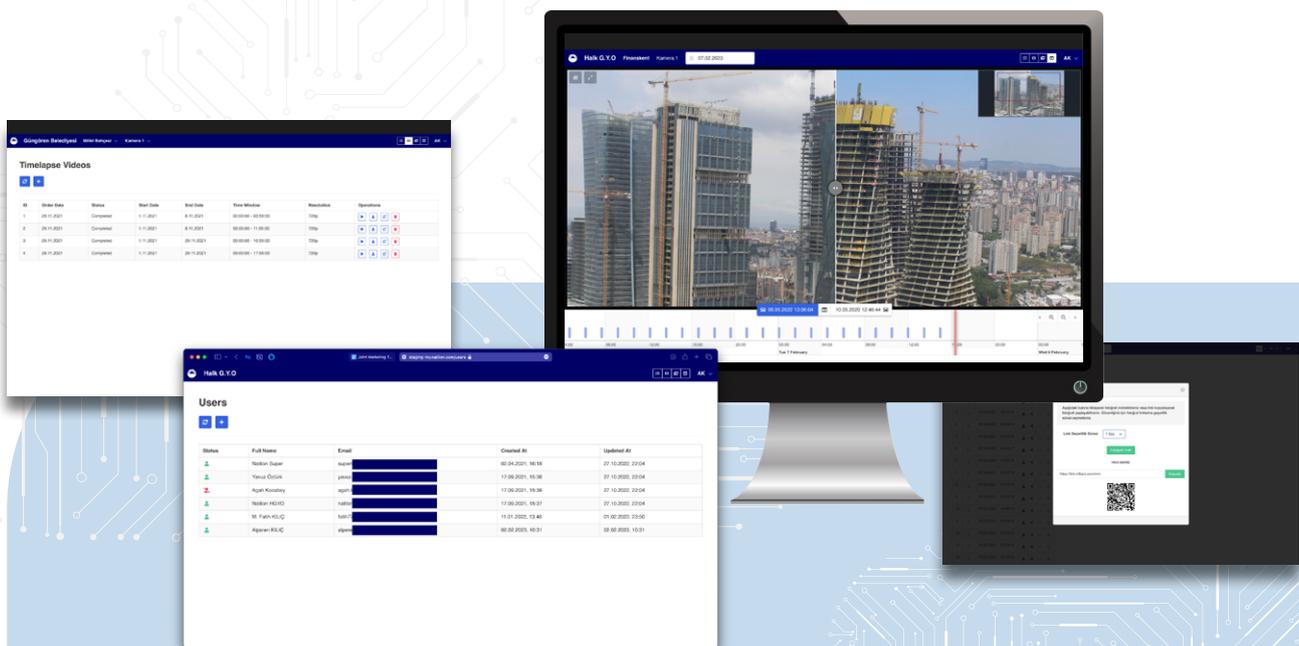

Thanks to our cloud based platform, CCTV installers can arrange demos without any additional hardware, without visiting the customer's site, and without any cost.

### 2. Second sale to same client

Our solution gives the CCTV integrator a chance to make a second sale to the same client.

### 3. Subscription-based income from IP Cameras.

Our solution gives CCTV installers the ability to create a subscription-based income from existing clients' cameras. This also gives the installer a new opportunity to keep in touch with their client.

## Key Features

Cloud-based time-lapse solution

Supports any camera resolution

On-demand video production in the cloud up to 8K

Manage multiple time lapse projects, cameras and users

Access from any device (iOS, Android, MacOs, Windows, Linux)

Different view modes (time-line, list, map)

Pinch to zoom, comparison, sync zoom features

## About Us

### Hikvision Digital Technology

Hikvision is committed to serving various industries through its cutting-edge technologies of machine perception, artificial intelligence, and big data, leading the future of AIoT. At Hikvision, we believe that close collaboration with our ecosystem of partners is needed to further accelerate innovation and development in the security industry, while also securing maximum value creation for clients.

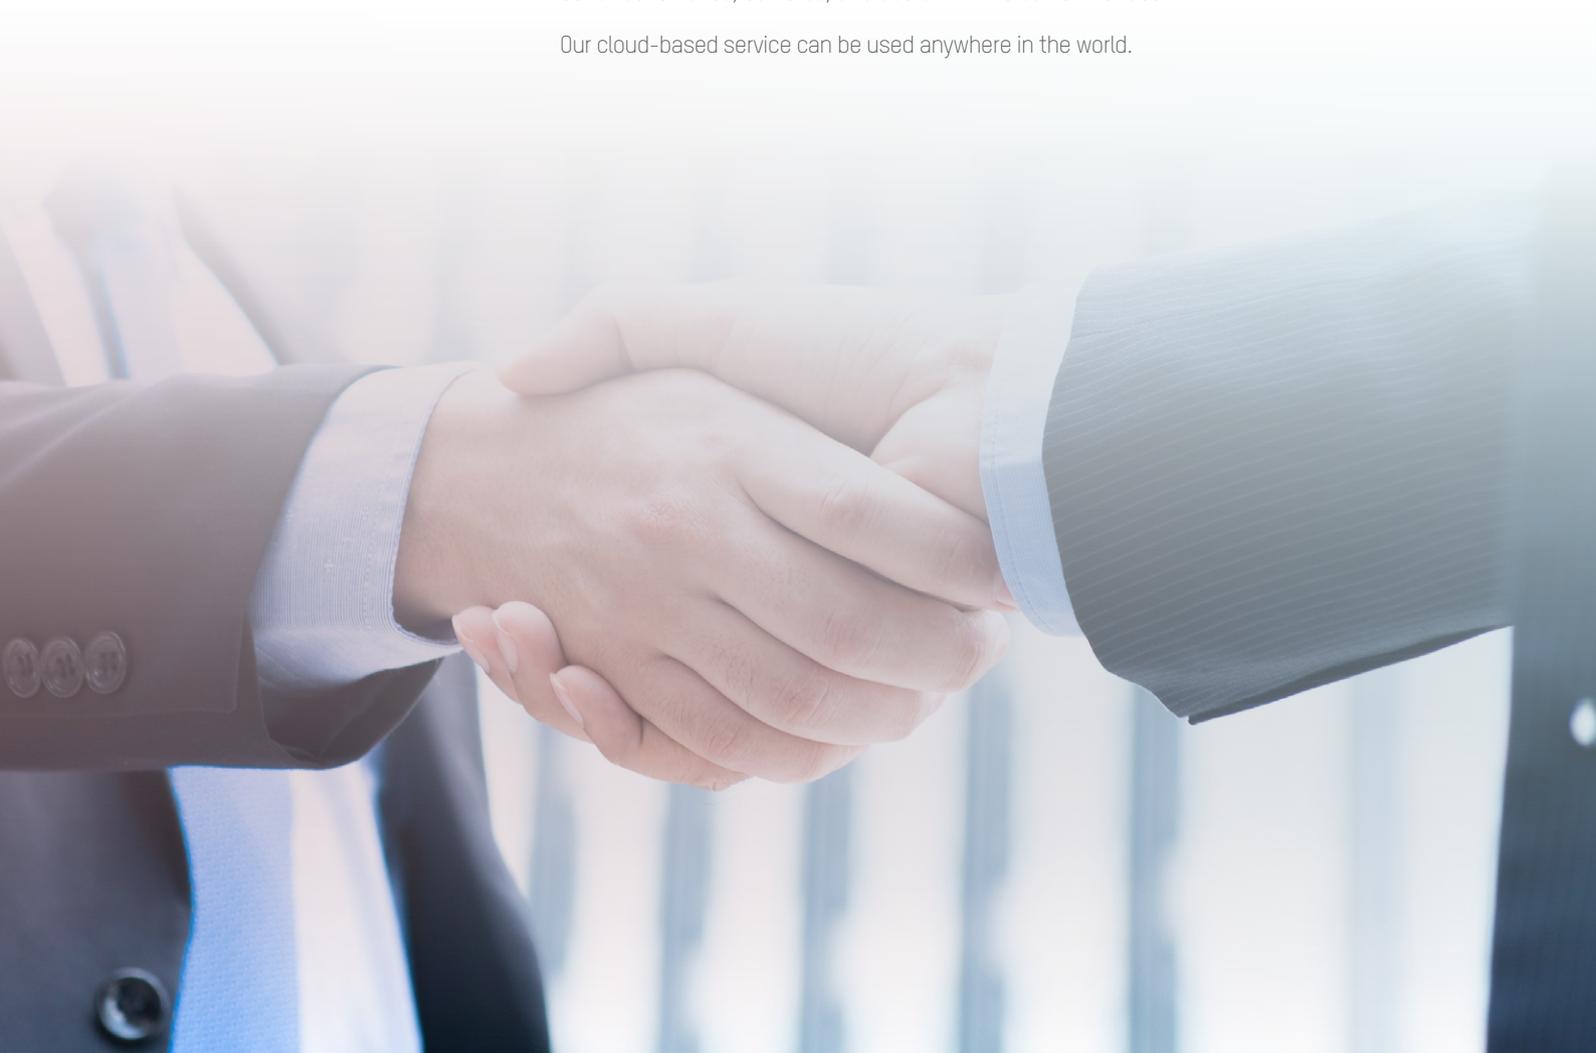

We work in close partnership with thousands of best of technical manufacturers of hardware and software systems in the security, automated manufacturing, and IoT industries. Our Technology Partner Program ensures that our clients can use Hikvision technologies knowing that we provide vendors with the tools to obtain comprehensive integration and compatibility with all our products.

### Natilon

Natilon was established in 2012 to be a company that offers high quality, value-added, and high-tech products and services to its customers.

Natilon offers a cloud-based time-lapse solution for IP camera users. Simply, we can connect any IP camera to our cloud and you can immediately start to take timelapse photos and create timelapse videos on the cloud. Our system is super easy to use, create, and share time-lapse videos with minimal setup and technical knowledge. You can manage multiple construction sites, cameras, and users with the same interface.

Our cloud-based service can be used anywhere in the world.
